PROFESSIONAL SUMMARY

I am a motivated and technically capable IT professional holding a Diploma in Information Technology from KCA University. Backed by hands-on experience across two professional roles, an industrial attachment at the National Housing Corporation ICT Department and an ongoing internship at Computech Limited, with a track record in technical support, hardware repair, system administration, network configuration, and information security. Committed to delivering reliable IT operations and supporting organisational efficiency through disciplined, detail-oriented work.

WORK EXPERIENCE

IT Support Intern

June 2026 – Present

Computech Limited – IT Service Centre

- Performed hardware diagnostics, laptop disassembly, component-level repair, and reassembly across a range of consumer and enterprise devices.
- Conducted preventive maintenance on laptops, desktop PCs, and computer monitors, including cleaning, inspection, and performance checks.
- Utilised Sergei Strelec WinPE toolkit for advanced system diagnostics, data recovery, password resets, and offline troubleshooting.
- Installed and configured Windows and Linux operating systems from scratch, including driver installation and post-setup optimisation.
- Carried out machine imaging — deploying standardised OS images to multiple devices for efficient setup and consistency.
- Provided walk-in and bench-level technical support, diagnosing and resolving client device issues within agreed service timeframes.
- Managed software installation, updates, and licence configuration for client devices.
- Performed data backup and recovery services for clients experiencing data loss or system failure.
- Maintained accurate job cards and service records, ensuring repaired devices met quality standards before return to clients.

IT Support Attachee

January 2026 – April 2026

National Housing Corporation – ICT Department

- Provided end-user technical support across multiple departments, resolving hardware, software, and connectivity issues promptly.
- Performed hardware maintenance, software installation, troubleshooting, and ICT asset management across the organisation.
- Administered LAN/WAN infrastructure, configured Wi-Fi, set up VPN connectivity, and resolved network faults.

- Delivered ICT support during organisational conferences, webinars, virtual meetings, and internal events.
 - Assisted in website management and maintenance tasks for the department.
 - Implemented cybersecurity practices including antivirus management, endpoint protection, access control, data backup, disaster recovery, and user account maintenance.
 - Assisted in the implementation of ISO 27001:2013 (ISMS) information security controls.
 - Managed digital document scanning, filing, and data entry; maintained accurate records.
 - Recognised informally for diligence, initiative, and a strong professional work ethic.
-
